Creating a Gmail

How we make the phone's Gmail, in the Gmail app. Every account after it is made from this email. Follow this step by step, every time.

Version **v0.1** Updated **10 Nov 2026** Owner **K** For **posters** Tool **Gmail app · Samsung**

01 Watch first

Creating a Gmail on mobile. Watch all of it before you start. Come back to it any time.

TO BE FILLED · tutorial link

02 What this is

One Gmail per phone, made on that phone, in the Gmail app. Instagram, Facebook and Threads are all made from it.

> EVERY LOGIN, STRAIGHT AWAY
> The moment you make an email or a password, it goes in the company login sheet. Before the next step. **TO BE FILLED** · where the sheet is

03 Before you start

- ☐ The phone is set up (SOP: Setting Up the Phone) and the Gmail app is up to date.
- ☐ The phone is on a hotspot.
- ☐ Your model: her name (her model deck).
- ☐ The company login sheet open.

04

Step by step

1 Open the Gmail app, create account

Open Gmail → add an account → Google → **Create account** → For myself.

2 Her name and birthday

Her name. Birthday: **TO BE FILLED** · which birthday to use

3 Choose the email

Type the email you want. **TO BE FILLED** · the email format, with an example

4 Make a password

A strong password. Save it. **Into the company login sheet now.**

5 Skip everything else

Phone number, recovery, extras: **skip all of it.**

05 Done means

- ☐ One Gmail, made on this phone in the Gmail app.
- ☐ No phone number on it.
- ☐ Email and password in the company login sheet.
- ☐ Next: Creating an Instagram.

06 Common mistakes

- **Adding a phone number.** Skip it.
- **Writing the password down "later".** The sheet, straight away.

TO BE FILLED · Added after every review with K

Not in here?

Read this SOP first. If the answer isn't here, **you must tell K and ask him.** Your question then gets added, so the next person finds it.
