STANDARD OPERATING PROCEDURE · WARM UP

Warming Up Instagram

How her Instagram warms up: the first days, every day after, and straight after every post. Watch first, then follow this step by step.

Version **v0.1** Updated **12 Nov 2026** Owner **K** Tool **Instagram · Samsung**

01 Watch first

> **WHY WE WARM UP**
> The app judges **her account before it judges her posts.** A new account starts with zero trust: the app watches the phone, the connection and how the account behaves. If she acts like a real girl who just joined, the app trusts her and learns her niche, so her posts go to people who love it.

How we warm up Instagram, Facebook and Threads (Loom by K). Watch all of it before you start. Come back to it any time.

02 What this is

Warm up is how she uses Instagram every day, like a real girl, so the app trusts her and shows her posts. It starts the day the account is made and **never stops**: every day, and after every post.

> ⚠ ACT LIKE A REAL GIRL. NEVER LIKE A BOT
>
> **NEVER ON WI-FI. HOTSPOT ONLY. NEVER A VPN.**
>
> **NEVER LIKE, FOLLOW OR COMMENT ON EVERYTHING.**
>
> Real people scroll, watch, sometimes like, sometimes comment. A burst of 50 likes or 100 follows in a few minutes is exactly what a bot does.

03 The rules, every day

- **Every day, on her own phone.** Not logging in and out, not skipping days. A real girl opens the app every day.
- **Her niche only.** Watch, like and follow what she would: her niche (Star Wars, Star Trek, Lord of the Rings) and girls like her.
- **Watch to the end.** Finishing a video tells the app she likes it.
- **Comments: real ones, or none.** Something a real person would say about that post. Never "nice", "cool", "🔥 🔥 🔥 ", never the same comment twice.
- **Follow slowly.** A few a day, never a burst.
- **No link in her bio** until the account says so (SOP: Creating an Instagram).
- **Explore and her niche, not the home feed,** in the first days.

How many a day: **TO BE FILLED** · K's numbers: likes, comments, follows per day

04

Day by day

1 Day 1 (the day she's made): Explore only

Explore page. Tap a post, come off it. Another post, come off it. **5–10 minutes.**

Day 1: never scroll the feed. Never open Reels. Nothing gets posted.

Why: a quiet first day looks like a person finding her feet.

---

2 Day 2: her niche

Search her niche (e.g. *star wars cosplay*, *lord of the rings*). Watch reels **to the end**. Like a few you really like. Follow a few niche accounts and girls like her. **TO BE FILLED** · how long

Her first pictures can go up today, after 24 hours of warm up (SOP: Posting Instagram Pictures).

Why: following and watching her niche tells the app who she is, so it shows her posts to people with the same interests.

---

3 Day 3 onwards: a real girl's day

The same, plus: **a few real comments** on niche posts, watch stories, save a post now and then. Short, real sessions, not hours. **TO BE FILLED** · how long a day

Why: a real comment that gets a like or a reply back is one of the strongest signs she is a real person.

---

4 After every post: 10 minutes

Straight after a post goes up: **10 minutes** on Instagram, the same way. Don't post and close the app.

Why: an account that posts and leaves looks like a bot. Being active after posting also helps the post get seen.

5 How to tell it’s working

Her posts get views and likes from people in her niche, and a few follows. Posts stuck on a handful of views, again and again? **Tell K.** Don’t make a new account.

TO BE FILLED · K’s numbers: what is good, what is a problem

05 Done means

- ☐ Day 1: Explore only, 5–10 minutes, nothing posted.
- ☐ Every day: her niche, watched to the end, a few likes, a few follows.
- ☐ From day 3: a few real comments.
- ☐ 10 minutes after every post.
- ☐ Hotspot only, every time.

06 Common mistakes

- **Scrolling the feed or opening Reels on day 1.**
- **Liking or following everything in one go.**
- **Copy-paste comments.**
- **Posting and closing the app.**
- **Skipping days.**
- **Wi-Fi.**
