Google Drive

Where everything you make lives: saved, organised, shared, and taken from Drive to the phone you post from. Follow this every time.

Version **v0.1** Updated **10 Nov 2026** Owner **K** Tool **Google Drive · laptop + phone**

01 Watch first

Already know Google Drive? Skip this. If not, watch only these four short parts. That's all you need.

Getting files in

Folders

Sharing

The phone app

The full video (16 minutes), if you want it: https://www.youtube.com/watch?v=gdrxAoqfvbA

02 What this is

Every picture and video you make goes into Google Drive, in the right folder. **The more you make, the more this matters:** a messy Drive means lost pictures and the wrong picture on the wrong account.

Drive is also how a picture gets from the laptop to the phone you post from.

⚠ THE RULES THAT GET ACCOUNTS BANNED

NEVER CONNECT THE PHONE TO WI-FI. HOTSPOT ONLY.

NEVER DOWNLOAD A PICTURE FROM GOOGLE DRIVE ONTO THE PHONE. ALWAYS OPEN IT AND TAKE A SCREENSHOT.

The apps can see where a picture came from and how the phone connects. Break one of these and the account gets banned.

03 Before you start

- ☐ Your laptop, signed in to the Drive account: **TO BE FILLED** · which Google account
- ☐ The Google Drive app on the posting phone (Play Store).
- ☐ Which model and which accounts your work is for.

04 How the folders are set up

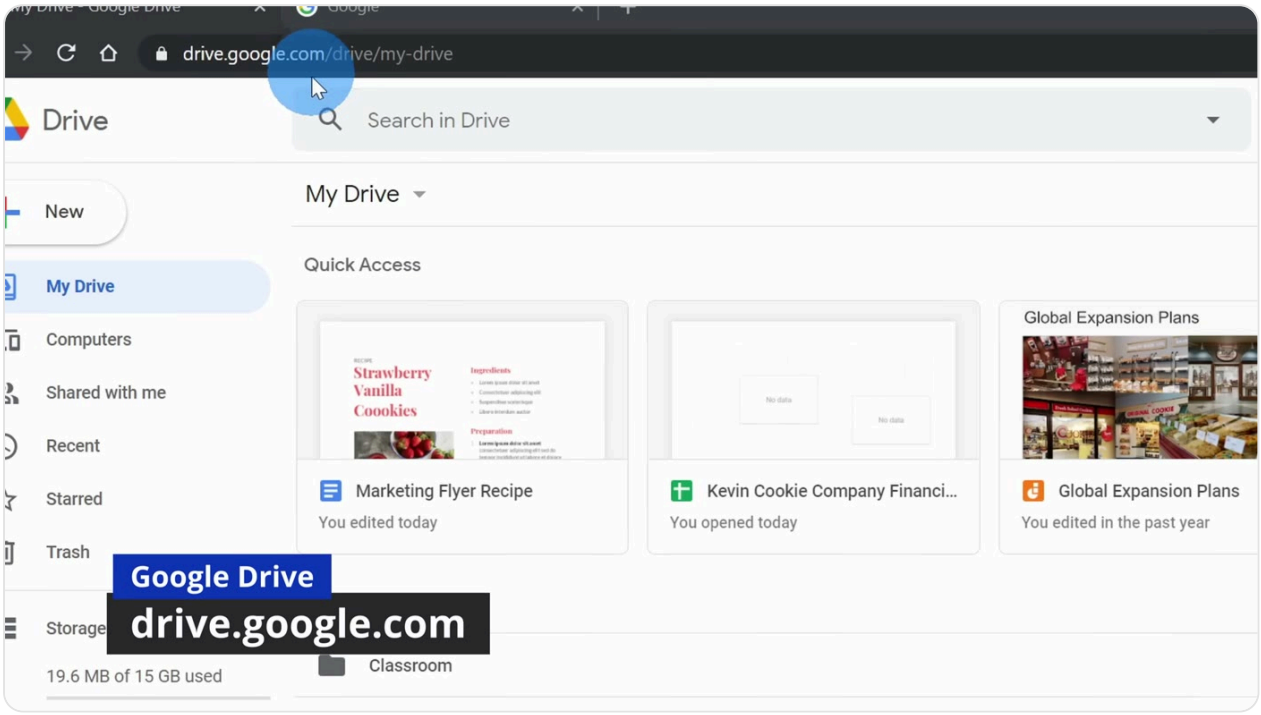

One folder per model. Inside, one folder per kind of content. **TO BE FILLED** · K's folder structure, from his screenshots

05 # Step by step

1 Open Drive

On the laptop: **drive.google.com**, or the 9-dot menu at the top right of any Google page → **Drive**.

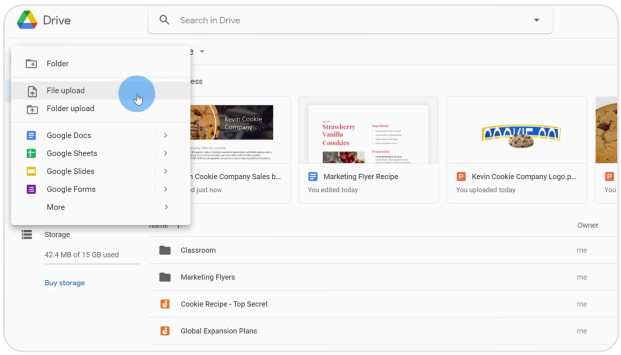

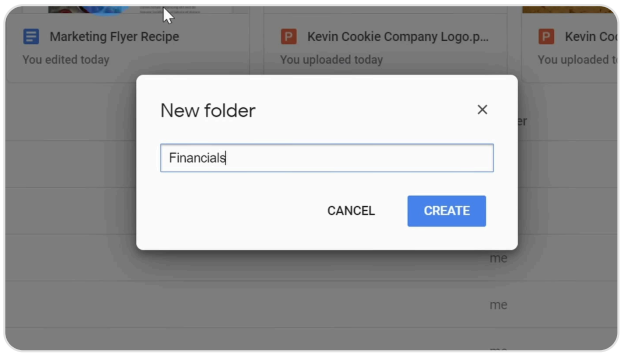

2 Go to the right folder

My Drive → **her model's folder** → the right kind (pictures, videos…). Never upload into My Drive itself.

3 A new folder, only if it's missing

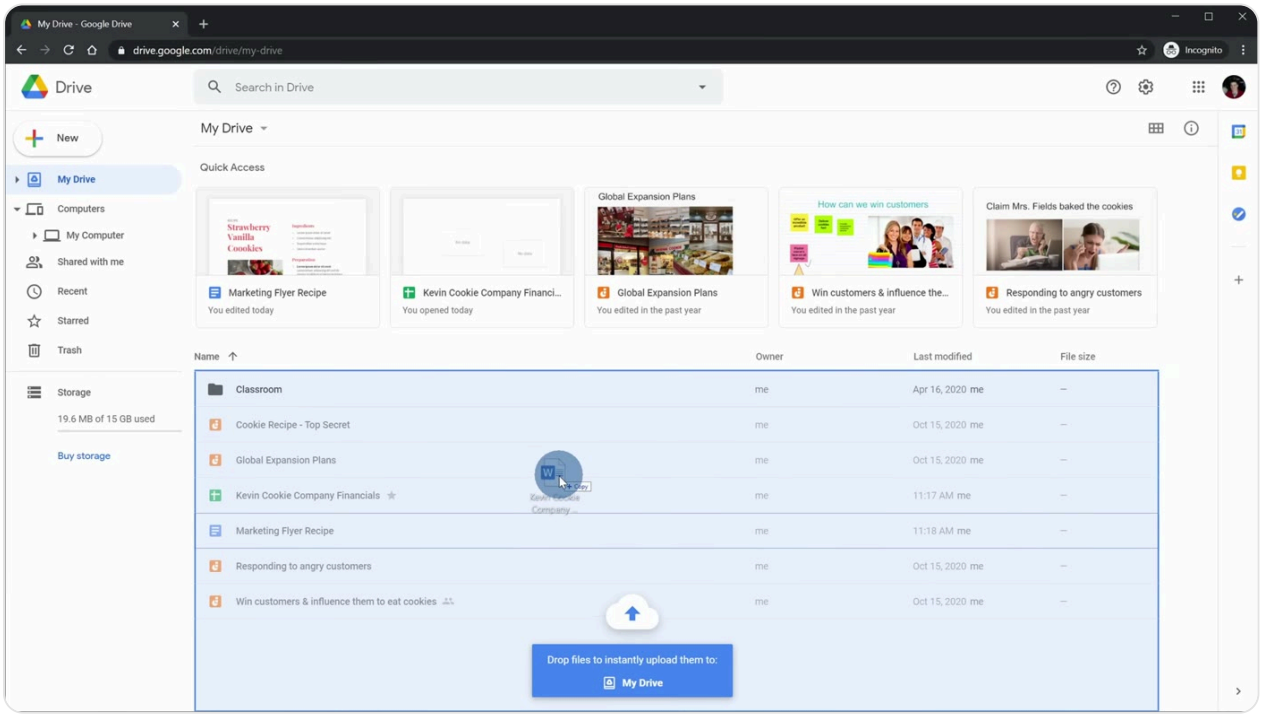

New → Folder. Name it exactly like the others. **TO BE FILLED** · folder naming rule

4 Upload

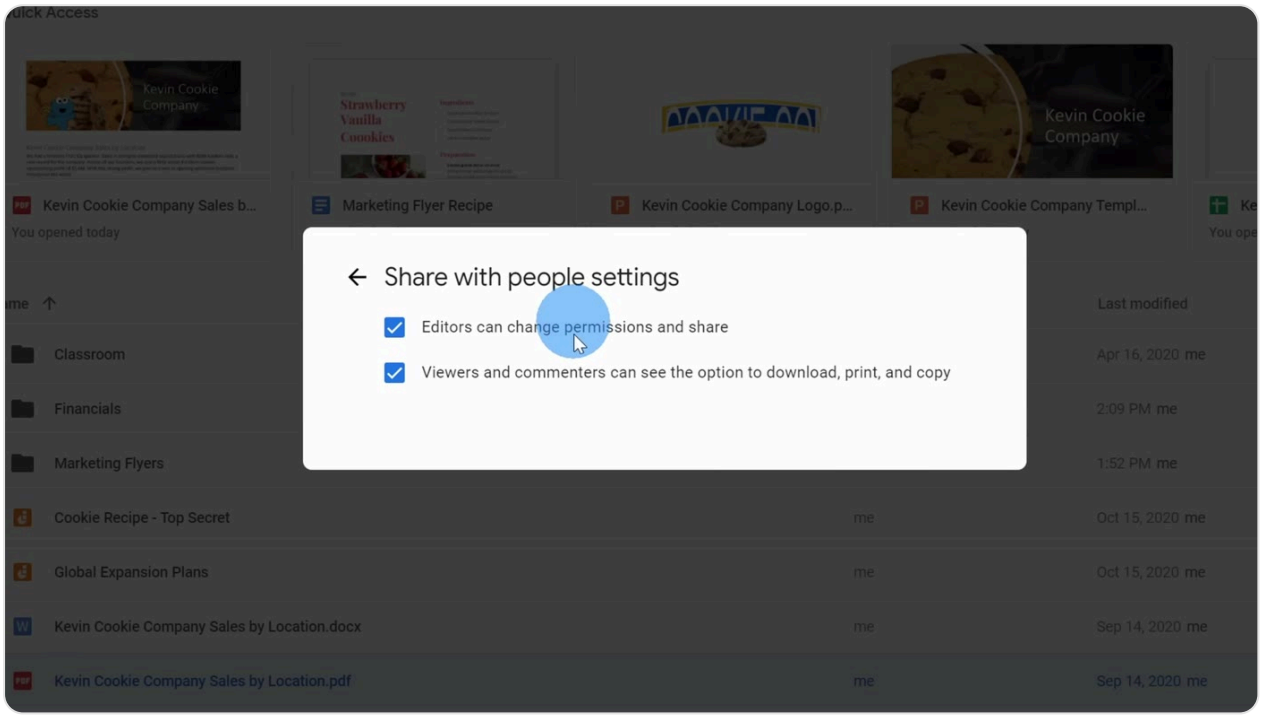

Drag the files from your laptop straight into the folder. Or **New → File upload**.

5 Share it

Right-click the folder → **Share**. Add who needs it: **TO BE FILLED** · who gets access, and as what Never "Anyone with the link".

Why: anyone with the link means anyone, forever.

6 On the phone: open, never download

On the posting phone, open the **Google Drive app** → the folder → tap the picture so it's full screen.

Take a screenshot (power + volume down). Crop it in the Gallery so only the picture is left. Use that.

NEVER DOWNLOAD A PICTURE FROM GOOGLE DRIVE. ALWAYS THE SCREENSHOT.

Why: a downloaded file keeps where it came from. A screenshot is a fresh picture taken on this phone.

06 Done means

- ☐ Everything you made today is in Drive, in her folder, in the right kind.

- ☐ Named like the rest. Nothing loose in My Drive.
- ☐ Shared with the right people only.
- ☐ Pictures reached the phone by screenshot, never download.

07 Common mistakes

- **Downloading from Drive onto the phone.** Always the screenshot.
- **Files loose in My Drive** instead of her folder.
- **One model's pictures in another model's folder.**
- **Sharing with "Anyone with the link".**
