02 What this is

We take a video that already works (the motion, the vibe) and recreate it with **her**, from her reference pictures. Then a winning caption makes it finished (the audio is the video's own).

Finished means ready to post: it looks real, the caption is on, the audio is the video's own.

03 Before you start

- ☐ Higgsfield open on the laptop, signed in.
- ☐ Her reference pictures (her face, her outfit) from Google Drive.
- ☐ The original video you want to copy.

04 Prompts

Copy one exactly. Add details at the end if you want.

1 · Copy the motion and vibe
